UNITED STATES OF AMERICA
ATOMIC ENERGY COMMISSION

In the matter of the application by)
GENERAL ELECTRIC COMPANY)
and)
SOUTHWEST ATOMIC ENERGY ASSOCIATES)
For a Provisional Construction Permit)
for the Southwest Experimental Fast)
Oxide Reactor (SEFOR))

DOCKET NO. 50-231
(found)

ORDER EXTENDING TIME

The Commission by the Atomic Safety and Licensing Board appointed for this proceeding has under consideration the Applicants' motion for order extending time to submit additional evidence, together with the Staff's reply thereto. It appears that the Applicants' assertions that additional time will be required for the preparation and submission of additional evidence and information required by the Initial Decision of September 10, 1965 is not challenged and that the Staff has no objection to the time extension requested. ACCORDINGLY,

IT IS ORDERED this 7th day of October 1965 that the time for filing additional information is extended to November 15, 1965 and that the time for filing supplemental proposed findings and conclusions and comments is extended to December 1, 1965.
