✓ MEMORANDUM FOR: R. K. Herr, Director, Office of Investigation

FROM: John T. Collins, Regional Administrator

SUBJECT: ALLEGATION 4-83-A-86 CONCERNING ALLEGATION OF [REDACTED]

In my memo dated December 13, 1983, I requested an investigation into the above issues at [REDACTED]. Since this investigation has not yet been conducted, we have questions regarding the [REDACTED].

The licensee has declared his readiness to load fuel on April 30, 1984. In view of this, we must determine the [REDACTED].

[REDACTED] I have, therefore, directed the Division of Resident, Reactor Project and Engineering Programs to make this determination without disclosing the alleged [REDACTED] issues. =

We will inform you of the results of our inspection.

OFFICE OF INVESTIGATION
FIELD OFFICE, REGION IV

MARK WHITE
GOVERNOR

OFFICE OF THE GOVERNOR

STATE CAPITOL

AUSTIN, TEXAS 78711

May 31, 1984

Governor White has requested that I respond to your letter and that of your daughter regarding employment protection of employees who request or participate in activities provided for by the Atomic Energy Act of 1954.

As you know, several nuclear power plants and numerous other nuclear facilities are being or may be constructed in the State of Texas. Because of the construction of those facilities, the Governor is very concerned that the relevant federal laws and agency statutes fully protect individuals who come forward and report or otherwise participate in activities designed to ensure proper construction and operation of nuclear facilities in the State. As a result of your letters, I have undertaken a review of the relevant statutes and regulations as well as key portions of the record relating to your husband's particular case.

Preliminary review of the materials mentioned above indicates that the Nuclear Regulatory Commission has complied with the requirements of Section 2.10 of the Atomic Energy Act of 1954 as amended and with relevant portions of their regulations. It would seem that the law and regulations cited may not provide sufficient protection. Any change in federal law would, of course, have to be initiated in Congress. You may wish to write to your congressman if you have not done so.

I fully agree that individuals committed to careful and safe construction and operation of these complex facilities should be afforded maximum protection under the law. I sincerely appreciate your having called this situation to our attention, although, unfortunately we are not in a position to offer any assistance.

Yours truly,

Dan Smith
