SUBJECT: NRC INSPECTION REPORT NO. 030-30905/97-001(DNMS)

Dear Mr. Martell:

This refers to the inspection conducted on May 21-22, 1997, at a temporary job-site located at the University of Wisconsin in Madison, Wisconsin. The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. At the conclusion of the inspection, the preliminary findings were discussed with Mr. Dennis Coombs of your staff. Our final inspection findings were discussed with your Radiation Safety Officer, Mr. C. D. Beatty, during a telephone conversation with Mr. D. G. Wiedeman of my staff on June 10, 1997.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, independent measurements and observation of activities in progress.

No violations of NRC requirements were identified during the course of this inspection.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practices," a copy of this letter will be placed in the NRC Public Document Room (PDR).

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

Original Signed by John R. Madera
