Haddam Neck Plant
Millstone Nuclear Power Station, Units 1, 2, and 3
Revised Corrective Action Plan for Operator Training Programs

Reference (a): H. J. Miller and W. D. Travers, USNRC letter to B. D. Kenyon, "Confirmatory Action Letter," dated March 7, 1997

Reference (b): J. K. Thayer letter to USNRC, "Response to Confirmatory Action Letter," dated March 31, 1997

In a letter dated March 31, 1997 [Reference (b)], the Connecticut Yankee Atomic Power Company (CYAPCO) and Northeast Nuclear Energy Company (NNECO) provided a response to Confirmatory Action Letter (CAL) 1-97-010 [Reference (a)]. The response forwarded a corrective action plan which outlined several actions to be taken with respect to the operator training programs for Millstone Units 1, 2, and 3 (MP1, MP2, and MP3), and for the Haddam Neck Plant (HNP). CYAPCO and NNECO consider the items of the corrective action plan to be commitments to the NRC Staff. One of the commitments has been revised, as follows:

Original Commitment

ES-2b: Perform a review of the non-licensed operator training programs for MP1, MP2, MP3, and HNP, prior to program restart, against the accredited training program requirements.

Due date: Prior to program restart

Revised Commitment

ES-2b: Perform a review of the non-licensed operator training programs for MP1, MP2, and MP3, prior to program restart, against the accredited training program requirements.

Due Date: Prior to program restart

ES-2f: Perform a review of the non-licensed operator training programs for the HNP against the accredited training program requirements.

Due date: Prior to transition to a Certified Fuel Handler training program

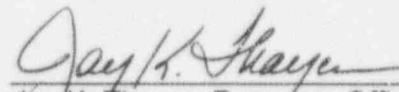

Justification

The HNP did not suspend its non-licensed operator training program. Therefore, it is not appropriate to perform a review prior to the program's restart. HNP will, however, review its training program, and will do so before the implementation of a Certified Fuel Handler training program, which is anticipated to occur later this year.

Please contact Mr. W. J. Temple at (860) 437-5904 should you have any questions regarding this matter.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
NORTHEAST NUCLEAR ENERGY COMPANY
