RETURN RECEIPT REQUESTED

Foots Mineral Company
Attn.: Mr. A. J. Primosic
Route 100
Exton, Pennsylvania 19341

Subject: Expired License No. SMB-850

Our records show that your Source Material License No. SMB-850 expired on August 31, 1975 and that no renewal application has been filed in accordance with Section 40.43 of Title 10, Code of Federal Regulations, Part 40.

If you do not have any source material in your possession and you no longer wish to be licensed, please complete the enclosed form "Certificate of Disposition of Materials" (Form AEC-314 or NRC-314) and return it to this office within 15 days.

If the activities conducted under the expired license were subject to the reporting requirements of 10 CFR 20.407, an annual report prepared in accordance with the provisions of 20.407 for the current calendar year and a termination report prepared in accordance with the requirements of 20.408, for those individuals who have been engaged in activities under the expired license, should be submitted to the Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Mr. J. B. Winningham.

Should you have source material in your possession, and if such possession is not authorized by Sections 40.13 and 40.22, "Unimportant quantities of source material" and "Small quantities of source material" respectively, you may be in violation of Section 40.3, 10 CFR 40. Therefore if you possess source material not authorized by Section 40.13 and/or 40.22, you should either: (a) divest yourself of the source material immediately in a lawful manner, execute the attached "Certificate" and forward it to this office as prescribed above; or (b) complete and submit the enclosed "Application for Source Material License," Form NRC-2 (or AEC-2) within fifteen (15) days.

Since the license has expired, your application for renewal will be processed as a request for a new license. Accordingly, you should determine if your program is subject to a license fee as required by Section 170.31, 10 CFR 170. The appropriate fee should accompany the application if one is required.

If you now possess source material which has previously been obtained under a valid license, and submit the application for a license within fifteen (15) days of the receipt of this letter, you are hereby authorized to continue to possess such material for storage only until final action has been taken on the application submission. Until such time as you acquire a valid license no other use of the material, or purchase of additional source material, is authorized.

Sincerely,
