Dear Ms. Whiston:

Enclosed please find duplicate copies of our license amendment request of November 19, 1985. These duplicates are submitted as, per a phone conversation with your section on December 3, the original request had not reached your office.

Also, the following statement was left out of the original amendment: "As The Ohio State University was organized by and in the State of Ohio, the University is exempt from all fees associated with this amendment request per Title 10, Chapter 1, Code of Federal Regulations Part 170.11.a.9".

Thank you for your consideration of this requested license amendment.

Sincerely,

Craig E. Jensen
Acting Radiation Safety Officer
