Attention: Mr. C. O. Thomas, Chief
Standardization and Special Projects Branch

Gentlemen:

SUBJECT: LICENSING TOPICAL REPORT NEDE-30996-P, "SAFER MODEL FOR EVALUATION OF LOSS OF COOLANT ACCIDENTS FOR JET PUMP AND NON-JET PUMP PLANTS"

This letter confirms our plans to meet with the technical staff at the NRC offices in Bethesda, MD on October 22, 1985 to discuss the subject report. The plans for this meeting have already been discussed with Messrs. D. Moran and M. W. Hodges.

GE intends to present technical material and answer specific staff questions in order to expedite the NRC review of the proprietary modeling material to be submitted under separate cover. At the conclusion of the meeting we plan to identify, in conjunction with the NRC staff, those actions necessary to assure that the review progresses smoothly. The proposed agenda is as follows:

-	Introduction/Objectives	9:00
-	Overview	9:30
-	SAFER Model	10:00
-	Lunch	12:00
-	Detail Core H.T. Model (CORECOOL)	1:00
-	Summary/Actions	2:30
-	Adjourn	3:30

The participants will include General Electric, GPU Nuclear Corporation and Niagara Mohawk Power Corporation. The specific attendees are expected to be:

-	R. B. Lee	(GPUNC)
-	P. M. Gururaj	(GPUNC)
-	M. Laggart	(GPUNC)
-	W. C. Tetley	(NMPC)
-	D. K. Green	(NMPC)
-	B. S. Shiralkar	(GE)
-	J. G. Andersen	(GE)
-	H. C. Pfefferlen	(GE)

In order to satisfy the meeting objectives it is requested that NRC attendees include B. Sheron and M. W. Hodges as well as the individuals who will actually be assigned the review and project management functions.

The material to be presented will include the type which General Electric maintains in confidence and withholds from public disclosure. It is requested that the meeting be treated accordingly.

Very truly yours,
