

**OFFICIAL RECORD COPY****MATERIALS LICENSE****Amendment No. 3**

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

## Licensee

In accordance with the letter dated March 13, 1997

1. **Waco Oil and Gas Co., Inc.**
2. **P.O. Box 397**  
**Glenville, West Virginia 26351**

3. License Number 47-18152-02

is amended in its entirety to read as follows:

4. Expiration Date April 30, 2004 (extended)

5. Docket or  
Reference No. 030-201946. Byproduct, Source, and/or  
Special Nuclear Material7. Chemical and/or Physical  
Form8. Maximum Amount that Licensee  
May Possess at Any One Time  
Under This License

- |                  |   |   |
|------------------|---|---|
| A. Cesium 137    | A. Sealed source registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation         | A. No single source to exceed 407 MBq (11 millicuries)  |
| B. Americium 241 | B. Sealed neutron source registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation | B. No single source to exceed 1.85 GBq (50 millicuries) |

## 9. Authorized Use:

- A. and B. Sealed sources contained in compatible portable gauging devices registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation for measuring properties of materials.

## CONDITIONS

10. Licensed material may be used at the licensee's facilities located 1 mile north of Hillsboro, Wv, near the intersection of US 219 and WV Route 39, and at temporary job sites of the licensee anywhere in the United States where the U.S. Nuclear Regulatory Commission maintains jurisdiction for regulating the use of licensed material.
11. The Radiation Protection Officer for this license is Nancy Burks.

C PDR

**MATERIALS LICENSE  
SUPPLEMENTARY SHEET**

License Number 47-18152-02

Docket or Reference Number 030-20194

Amendment No. 3

**CONDITIONS**

Continued -

12. Licensed material shall be used by, or under the supervision and in the physical presence of Nancy Burks, or individuals who have been trained in the licensee's standard operating and emergency procedures and have satisfactorily completed at least one of the following:
  - A. The device manufacturer's training course for safe use and handling of portable gauging devices containing licensed material, or
  - B. A portable gauge training program conducted in accordance with the provisions of an NRC or Agreement State license.
13. Sealed sources containing licensed material shall not be opened or removed from the gauging device by the licensee.
14.
  - A. Sealed sources shall be tested for leakage and/or contamination at intervals not to exceed 6 months or at such other intervals as specified by the certificate of registration referred to in 10 CFR 32.210.
  - B. In the absence of a certificate from a transferor indicating that a leak test has been made within 6 months prior to the transfer, a sealed source or detector cell received from another person shall not be put into use until tested.
  - C. Sealed sources need not be leak tested if they contain not more than 100 microcuries of beta and/or gamma emitting material or are in storage and are not being used. However, when they are removed from storage for use or transferred to another person, and have not been tested within the required leak test interval, they shall be tested before use or transfer. No sealed source shall be stored for a period of more than 10 years without being tested for leakage and/or contamination.
  - D. The leak test shall be capable of detecting the presence of 0.005 microcurie of radioactive material on the test sample. If the test reveals the presence of 0.005 microcurie or more of removable contamination, a report shall be filed with the U.S. Nuclear Regulatory Commission in accordance with 10 CFR 30.50(b)(2), and the source shall be removed immediately from service and decontaminated, repaired, or disposed of in accordance with Commission regulations. The report shall be filed within 5 days of the date the leak test result is known with the U. S. Nuclear Regulatory Commission, Region II, Division of Nuclear Materials Safety, 61 Forsyth Street, S.W., Suite 23T85, Atlanta, Georgia 30303-3415. The report shall specify the source involved, the test results, and corrective action taken.
  - E. The licensee is authorized to collect leak test samples for analysis by Troxler Electronics Laboratories, Inc. Alternatively, tests for leakage and/or contamination may be performed by persons specifically licensed by the Commission or an Agreement State to perform such services.
15. The licensee may transport licensed material only in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."

**MATERIALS LICENSE  
SUPPLEMENTARY SHEET**

License Number 47-18152-02

Docket or Reference Number 030-20194

Amendment No. 3

**CONDITIONS**

Continued -

16. The licensee shall conduct a physical inventory every 6 months to account for all sources and/or devices received and possessed under the license.
17. The licensee shall maintain records of information important to safe and effective decommissioning at the location in Condition 10, pursuant to the provisions of 10 CFR 30.35(g) until this license is terminated by the Commission.
18. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum specified 10 CFR 30.35(d) for establishing decommissioning financial assurance.
19. Each portable nuclear gauge shall have a lock or outer locked container designed to prevent unauthorized or accidental removal of the sealed source from its shielded position. The gauge or its container must be locked when in transport, storage or when not under the direct surveillance of an authorized user.
20. Any cleaning, maintenance, or repair of the gauge(s) that requires removal of the source rod shall be performed only by the manufacturer or by other persons specifically licensed by the Commission or an Agreement State to perform such services.
21. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
  - A. Application dated April 5, 1994
  - B. Letter dated March 13, 1997 [change in ownership]
  - C. NRC letter dated March 1, 1996 [extends expiration date in accordance with 10 CFR 30.36]

INFORMATION FOR NRC MATERIAL LICENSEES

Please find enclosed:

- ☒ Your NRC material license
- ☐ Amendment to your NRC material license
- ☐ Amendment renewing your NRC material license
- ☐ Amendment terminating your NRC material license
- ☐ Notice for Radiographer Quality Assurance Approval Program

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify this office (ATTN: Ms. Diane Heim at (404) 562-4723) so that we can provide appropriate corrections and answers.

Please be advised that your license expires at the end of the day in the month and year stated in the license. Unless your license has been terminated, you must conduct your program involving byproduct materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR 19, "Notice, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Not possess and use materials authorized in Items 6, 7, and 8, on the license until:
  - a. you have constructed the facilities and obtained the equipment described in the license application and supporting documentation; and
  - b. you have notified the U. S. Nuclear Regulatory Commission, Region II, ATTN: Materials Licensing/Inspection Branch, in writing, that activities authorized by the license will be initiated.
  - c. you have submitted and certified implementation of a Quality Management Program (10 CFR 35.32) for radiotherapy, or for administering  $>30$  uCi of I-125 or I-131.
3. Notify NRC, in writing, within 30 days:
  - a. when an authorized user, Radiation Safety Officer, or Teletherapy Physicist permanently discontinues performance of duties under the license or has a name change; or
  - b. when the licensee's mailing address changes (no fee is required if the location of byproduct material remains the same).
4. In accordance with 10 CFR 30.36(b) and/or license condition, notify NRC, promptly, in writing, and request termination of the license:
  - a. when you decide to terminate all activities involving materials authorized under the license; or
  - b. if you decide not to complete the facility, acquire equipment, or possess and use authorized material.

5. Request and obtain a license amendment before you:
  - a. receive or use byproduct material for a clinical procedure permitted under Part 35 but not permitted by your license issued pursuant to this part.
  - b. permit anyone, not authorized under 10 CFR 35, Subpart J, to work as an authorized user under a license for medical use of byproduct material.
  - c. permit anyone, not authorized under 10 CFR 35, Subpart J, to work as a Radiation Safety Officer, Teletherapy Physicist, or Nuclear Pharmacist, under a license for medical use of byproduct material.
  - d. order byproduct material in excess of the amount, or a different radionuclide or form, other than authorized on the license;
  - e. add or change the areas of use or address (or addresses) of use identified in the license application or on the license; or
  - f. change ownership of your organization.
6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date of your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of byproduct material after your license expires is a violation of NRC regulations. Transfer of licensed materials must be consistent with 10 CFR 30.41, 40.51 or 70.42, as applicable. A license will not normally be renewed, except on a case-by-case basis, in instances where licensed material has never been possessed or used.

In addition, please note that NRC Form 313 requires the applicant, by his/her signature, to verify that the applicant understands that all statements contained in the application are true and correct to the best of the applicant's knowledge. The signatory for the application should be the licensee or certifying official rather than a consultant.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a Notice of Violation, or imposition of a Civil Penalty, or an order suspending, modifying or revoking your license as specified in the "General Statement of Policy and Procedures for NRC Enforcement Actions," NUREG-1600, (7/95). Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken against those who do not achieve the necessary attention to detail and standard of compliance expected of licensees.

Thank you for your cooperation.

Enclosures:

1. NRC License
2. Category Marked Below for:
  - ☐ New licenses: NUREG-1600 (7/95); 19; 20; 30; 40 or 70, as appropriate; 71; 170; NRC Form 3; Agreement State list; and NRC Form 313.
  - ☐ New radiography licenses: Parts 34; 150.
  - ☐ New medical and teletherapy licenses: Part 35.
  - ☐ Amendments and renewals: NRC Form 313.

Attachment to Application for Material License

5.) Cesium 137

Sealed source registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation.

No single source to exceed 407 MBq (11 millicuries)

Americium 241

Sealed neutron source registered pursuant to 10 CFR 32.210 or an equivalent Agreement State regulation.

No single source to exceed 1.85 GBq (50 millicuries)

- 6.) The purpose for which the material will be used for measuring properties of materials.
- 7.) Nancy Burks will be responsible for Radiation Safety Program and she is named in the existing license.
- 8.) Individuals will be trained by the device manufacturers training course for safe use and handling of portable gauging devices containing licensed material, or a portable gauge training program conducted in accordance with the provisions of an NRC or Agreement State license.
- 9.) Licensee's facilities are an asphalt preparation plant and related construction equipment.
- 10.) All leak tests to be performed as required and transferee to abide by all conditions of current license.
- 11.) As required by current license.

207443

Answers to Questions  
Required for Amendment of License 47-18152-02

- 1.) Waco Oil and Gas Co., Inc.
- 2.) Stephen E. Holloway, (304) 462-5347
- 3.) I. L. Morris, President, Director, Sole Stock Owner  
Kenneth Greenlief, Executive Vice President & Treasurer  
Barry K. Lay, Vice President, Engineering  
Douglas Morris, Vice President, Operations  
Sandra Pettit, Secretary

Radiation Safety Officer to be Nancy Burks, who is named in the existing License.

- 4.) The transferor will not remain in non-licensed business without a license.
- 5.) Transfer of all company assets by means of an Asset Purchase Agreement.
- 6.) Changes in organization as noted above in item No. 3. The location of facility and equipment is to remain the same.
- 7.) There should be no change in the use, location or storage of the licensed materials. Possession will be as indicated above.
- 8.) None.
- 9.) All surveillance items, records, tests, etc. will be current at the time of transfer.
- 10.) The leak test records do not indicate there ever being a leak.
- 11.) There is no contamination of the facility.
- 12.) There is no cleanup needed.
- 13.) The transferee agrees to abide by all of the commitments and representations made to the USNRC by transferor. There are no open inspection items.
- 14.) See attached letter.
- 15.) See attached letter.

March 13, 1997

101 Marietta Street, N.W.  
Suite 2900  
Atlanta, Georgia 30323-0199

**Attn: David Collins**

**RE: Transfer of License No. 47-18152-02**

Dear Mr. Collins:

Waco Oil and Gas Company, Inc., (Transferee) has purchased, by an Asset Purchase Agreement, a portable gauging device from E. R. Totten (Transferor) which device is licensed under the number referenced above. By affixing their signatures to this letter, the Transferor and Transferee agrees to the change in ownership and control of the licensed material and the Transferee agrees to the conditions of transfer and has been made aware of all open inspection items and its responsibility for possible resulting enforcement actions.

The Transferee agrees to abide by all constraints, conditions, requirements, representations, and commitments identified in the existing license.

WITNESS the following signatures:

  
\_\_\_\_\_  
E. R. Totten, Transferor

  
\_\_\_\_\_  
I. L. Morris, Transferee  
President  
Waco Oil and Gas Company, Inc.
