Re: 10CFR50.73(a)(2)(ii)

U.S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, DC 20555

This letter forwards Licensee Event Report (LER) 97-024-00, documenting an event that occurred at Millstone Nuclear Power Station, Unit No. 1 on April 9, 1997. This LER is submitted pursuant to 10CFR50.73(a)(2)(ii).

The following are Northeast Nuclear Energy Company's (NNECO's) commitments made within this letter. All other statements made within this letter are for information only.

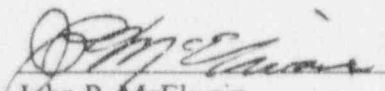

- B16400-1 NNECO commits to conduct training for electrical engineering personnel on electrical coordination issues to ensure the concept is captured in future design preparation including the calculation and design reviews prior to start-up for operating cycle 16.
- B16400-2 NNECO commits to review electrical systems at the circuit level for mis-coordination and correct as required prior to start-up for operating cycle 16.
- B16400-3 NNECO commits to eliminate breaker to breaker mis-coordination between panels containing both safety and non-safety circuits and their respective panel supply breakers prior to start-up for operating cycle 16.
- B16400-4 NNECO commits to complete the 50.54(f) review to identify the current design basis requirements pertaining to electrical separation and single failure criteria prior to startup for operating cycle 16.

Very truly yours,

1/1  
Jero
