611 RYAN PLAZA DRIVE, SUITE 1000
ARLINGTON, TEXAS 76011

MAR 28 1986

Arkansas Power & Light Company
ATTN: John M. Griffin, Senior
Vice President - Energy Supply
P. O. Box 551
Little Rock, Arkansas 72203

Dear Mr. Griffin:

This is to document that at our meeting today with you and the other utility representatives we discussed:

1. The NRC view of the features that utility allegation management systems should possess. The discussion included actions NRC expects licensees to take when allegations received by NRC are referred to the utility for action in accordance with NRC policy.
2. Region IV's approach to emergency response, and the NRC role during emergencies.
3. NRC Operator requalification testing program and its application to evaluation of licensee requalification program.
4. Section 210 of the Energy Reorganization Act.

Although the discussions were general and did not relate specifically to your facility, I believe the exchange was beneficial to all the participants.

Sincerely,

Robert D. Martin
Regional Administrator
