RE: Docket No. 50-231  
License No. DR-15

Dear Dr. Morris:

Recent discussions with members of your staff have indicated that clarification of some portions of Revision 1 of Proposed Change No. 4 to the SEFOR Technical Specifications would be appropriate, and that a correction needs to be made to page 4-9 of the SEFOR Facility Description and Safety Analysis Report. The attached replacement pages provide these clarifications and corrections.

Very truly yours,

*Karl Cohen*
