United States Nuclear Regulatory Commission
Region II
191 Marietta Street, NW, Suite 2900
Atlanta, GA 30323-0199

Dear Mr. Wright:

In a recent telephone conversation, you made reference to information contained in our application for renewal of our Materials License (45-11496-01) dated March 27, 1991, that at the time was considered to be proprietary. You inquired whether or not it was still considered sensitive as you wished to include it in the main body of information we have provided so that it can be accessed without restriction.

I have reviewed the information in question and conclude that it is no longer necessary to consider it proprietary. ARECO has no objections to it being included without restrictions in our license file.

If you have any questions regarding this matter, please call me at 804-385-5300.

Yours truly,

THE APPLIED RADIANT ENERGY CORPORATION
