Subject: Revisions to the Fermi 2 Control Room Simulator  
Four Year Report, Dated December 19, 1996

Please refer to the Enclosure for a revision to the scheduled completion date for the turbine bypass valve response discrepancy contained in Reference 2. The Enclosure contains a description of the discrepancy, as well as original and revised discrepancy correction dates. The actual completion date for this item was April 24, 1997.

If additional information is required please contact Mr. Joseph S. Sahli,  
Supervisor - Nuclear Training Simulator & Training Support, at (313) 586-4138.

Sincerely,

Peter W. Smith  
Director, Nuclear Licensing

## **REVISION TO CONTROL ROOM SIMULATOR FOUR YEAR REPORT**

The following date in the Fermi 2 Nuclear Power Plant Control Room Simulator Four Year Report is revised as follows:

*1. Section 4 - Fermi 2 Compliance with Requirements*

*A. Uncorrected performance test failures at Fermi 2 and schedule for correction*

- 1) Item 4 - DR 96-0139: Turbine Bypass Valves do not respond exactly as expected following a pressure regulator failure.*

The original scheduled completion date for this item was December 20, 1996. The actual completion date for this item was April 24, 1997.
