(Return to WM, 623 SS)

Dear Dr. Williams:

I have reviewed the August 1985 monthly report. I have the following comments:

We have received the final draft of the hydrochemical data. Neil Coleman and I have reviewed the report and are satisfied with the changes. As Gerry and I have discussed, NRC will be responsible for distributing the report to DOE, Rockwell and other DOE/BWIP consultants. Please send us ten (10) spiral-bound copies of the report for this purpose.

The work described regarding monthly average water levels at DC-19, -20, and -22 is satisfactory. Given the late date, no additional baseline monitoring data will be sent to you prior to the expiration of this contract.

The action taken by this letter is considered to be within the scope of the current contract NRC-02-82-044. No changes to cost or delivery of contracted services and products are authorized. Please notify me immediately if you believe that this letter would result in changes to cost or delivery of contracted products.

Sincerely,

Original Signed By
