U.S. Nuclear Regulatory Commission
Region IV
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Attention: Mr. Jack E. Whitten

SUBJECT: AMENDMENT OF MATERIAL LICENSE
NUMBER 42-13553-02

Dear Mr. Whitten:

Attached are two replacement copies of the cover sheet, index, part 3 and part 6 of the CBI Isotope Radiation Safety Manual.

The changes covered in this requested amendment are the personnel and organizational changes shown on pages 4,5,6 and 7 of part 3. As a result of this extensive company reorganization, we request this materials license amendment in the name of CBI Industries in lieu of Chicago Bridge and Iron Company. Wherever the name Chicago Bridge and Iron Company still appears; ie on Form WL 85, WL 231 and WL 287A, it shall mean CBI Industries.

The other changes to the manual are items 2.5 and 2.7 of part 6. The first would allow film badges to be changed at periodic intervals as long as a month instead of only one week. The second is to allow the RSO to use the nuclear plant film badges or TLD's as substitutes for the CBI film badges when doing radiography in these facilities. In the past, this duplication has created a lot of confusion and unnecessary paper work.

Enclosed is a check for \$110.00 amendment fee.

If you have any questions regarding these changes, please call me at 713/466-7581 ext. 271. Thank you.

Sincerely,

Charles N. Sherlock
