**Re: Standard Operating Procedure for Safety and Environmental Review Panel
Source Material License SUA-1358
Docket No. 40-8681**

Dear Mr. Holonich:

At the request of Mr. James Park, of your staff, we are submitting a revised version of the Standard Operating Procedure (SOP) for the Safety and Environmental Review Panel (SERP) for the White Mesa Mill.

The SOP has been revised to reflect the name change of the company from Energy Fuels Nuclear, Inc. (EFN) to International Uranium (USA) Corporation (IUSA).

Also, any references to the Environmental Assessment have been reworded to specify the February 1997 Environmental Assessment.

Sincerely,

William N. Deal
Manager, White Mesa Mill
