Gentlemen:

Please find enclosed our check in the amount of \$120.00 for the following amendment to our NRC License (#21-01333-01):

We request a change in the Ir-192 possession limit from 0.5 Ci to 2.0 Ci.

Because of a new brachytherapy program which was recently initiated in our Radiation Oncology Department, the demand for Iridium sources has markedly increased. Your cooperation in expediting the increase in our possession limit to the requested level would be greatly appreciated. This would allow us to possess sufficient quantities of Ir-192 to support our increased patient load.

Thank you for your consideration.

Sincerely,

Norman H. Horwitz
