11.3.97

Dear Dr. Larkins,

Thank you for your letter from February 28, 1997, regarding the proposed quadripartite meeting to be held in Japan. Germany has not yet received an official inquiry from Japan, and we believe that France also did not receive an inquiry.

I support your proposal to meet in October 1997. From my point of view the best date for the meeting is some time in the last week in October. I apologize that owing to my tight time schedule other dates in October may be difficult to realize.

The list of items that Germany would like to discuss in this meeting will be established in our next RSK-meeting in April. It will then be forwarded to all sides.

Yours sincerely
