Re: Docket #40-8027
SUB-1010, Amendment No. 8

Dear Mr. Rothfleisch:

Enclosed is the November Report for the 1977 raffinate test program conducted at the Kerr-McGee Sequoyah Facility. The report deals with observations, operations, and preliminary results of the test program. Additional analytical data and evaluation of test results will be reported to the NRC when completed.

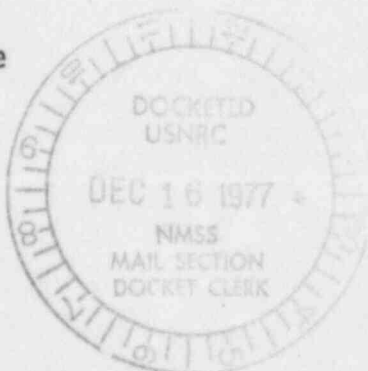

Please let us know if you require additional or more detailed information.

Very truly yours,

W. J. Shelley
