SUBJECT: Amendment to NRC License No. 23-01544-08,  
Application date 14 November 1978 (Control No. 97350).

Nuclear Regulatory Commission  
License Management Branch/Mr. Joseph Brown, Jr.  
Division of Fuel Cycle and Material Safety  
Washington, DC 20555

Dear Mr. Brown:

Reference is made to your letter date 16 January 1979, requesting letters of concurrence by state officials in whose states the tests will be performed.

Attached is a letter from the Mississippi State Board of Health indicating concurrence with the proposed studies, using krypton-85 and hydrogen-3, to be conducted in Mississippi.

Expeditious review of the application would be greatly appreciated as the studies are being postponed until the license can be obtained.

Correspondence concerning this matter should be directed to: HQDA (DAEN-SOI)  
WASH, DC 20314

Thank you in advance for your attention to this matter.

*Larry R. Cook*

IN REPLY REFER TO: WESDV

11 April 1979

SUBJECT: Amendment to NRC License No. 23-01544-08

HQDA (DAEN-SOI)  
Washington, D.C. 20314

1. Reference is made to the following:

a. This Station's application to amend NRC License No. 23-01544-08, dated 14 November 1978 (Control No. 97350).

b. NRC's letter to DAEN-SOI, dated 16 January 1979, requesting letters of concurrence by State Officials in whose states the studies will be conducted prior to review of the application.

c. Letter from DAEN-SOI, dated 16 February 1979, transmitting the above NRC letter to this Station.

2. Attached is a letter from the Mississippi State Board of Health showing concurrence with proposed studies, using krypton-85 and hydrogen-3, to be conducted in Mississippi. Future plans are to conduct tests in other states, and concurrence is being requested from those states. Because of the urgency of the tests to be conducted in the state of Mississippi, it is requested that the letter of concurrence from that state be submitted to NRC, so that review of the subject application can be continued for tests in Mississippi. When concurrence is received from the other states, copies of the letters will be forwarded for transmittal to NRC.
