Dear Ms. Sylva:

This will acknowledge your letter dated October 19, 1994, in response to our comments following the April 1994 follow-up review of your radiation control program for agreement materials.

We recognize the actions that you and your staff are implementing with regard to our comments and recommendations. We note that you indicated in your response that changes are pending regarding the enforcement procedures, the revisions to the administrative procedures on misadministrations reporting, and the tracking of incidents. We will evaluate the effectiveness of the State's action at the time of our next program review.

I appreciate your support of the radiation control program and look forward to working with you in the future.

Sincerely,
