DRAFT ENVIRONMENTAL STATEMENT FOR KERR-McGEE's SEQUOYAH
URANIUM HEXAFLUORIDE PLANT

The Draft Environmental Statement for Kerr-McGee's uranium hexafluoride plant is now ready for printing. We have resolved the technical issues which remained outstanding when Jack Rothfleisch was assigned to a higher priority effort and we have received and addressed comments obtained from OGC. In addition, I have reviewed it in detail and subject to your approval, 500 copies will be printed and distributed to Federal and state agencies for their review and comment.
