ENVIRONMENTAL FILE

SWTED-PE

10 July 1974

Mr. R.B. Chitwood
Chief, Technical Support Branch
Directorate of Licensing
US Atomic Energy Commission
Washington, DC 20545

Dear Mr. Chitwood:

We have reviewed the draft environmental impact statement related to the Kerr-McGee Nuclear Corporation, Sequoyah Uranium Hexafluoride Plant, Docket No. 40-8027, as requested in your letter of 18 April 1974.

Our comment pertains to the Waste Discharge Permit Application initially filed with the Corps of Engineers on 21 June 1971 and supplemented 4 October 1971. That permit application was transferred to the Environmental Protection Agency on 17 October 1972 for further handling since that agency had been given that responsibility. The statement should reflect that change.

It should also be noted that the present water supply storage provided in Tenkiller Lake is by temporary contract and will not be made final until our restudy of the lake is complete. The restudy is presently scheduled for completion in Fiscal Year 1977.

Sincerely yours,

Weldon M. Camel
