

Iowa Department of Transportation

800 Lincoln Way, Ames, Iowa 50010 515/239-1452

Ref. No. 435.18

October 15, 1985

Mr. Bruce S. Mallett, PhD., Section Leader
Materials Licensing Branch
U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, IL 60137

Dear Mr. Mallett:

The Iowa Department of Transportation (License No. 14-06077-03) is in the process of acquiring from Troxler Electronic Laboratories, Inc. an asphalt content gauge Model 3141-B which utilizes AM-241:Be, special form in the amount of 300 mCi. This gauge is identified in your office as Troxler Drawing #A-100337.

We would like an amendment to our license to allow us the possession of Troxler Model 3141-B asphalt content gauges containing sealed sources of 300 millicuries of Americium 241.

All procedures to be used with these gauges will be as provided for in our current license.

We anticipate this transaction to take place December 1, 1985. Consequently, any expediting of this request would be appreciated.

Sincerely,

FEE EXEMPT
