Subject: Request for the A version - QAPP for SFR Metallic Fuel Data Qualification
Date: Friday, May 15, 2020 3:51:00 PM

Hi Abdellatif:

In our [Final SE letter](#) issued on April 29, 2020 I failed to request for the approved "-A" (designated accepted) of the QAPP for SFR Metallic Fuel Data Qualification. This designated accepted version should provide all the documentation related to the review in one place. The document should include the QAPP ("-A" added after the report identification number), the RAIs and respective answers, and the NRC staff SE. I will send a letter requesting ANL to publish the applicable version of the Topical Report but I wanted to give you the heads up of this and include the ML#s of the documents that should be attached. The letter that I will soon submit to ANL acknowledging the report can be submitted as the "-A" version should also be included in the reference documents. I am also including in this email a publicly available example of a Topical Report for a QAPD – A version for your reference.

Please forgive this error. I learned this after I submitted the final SE letter.

1. Final Safety Evaluation of ANL QAPP for SFR Metallic Fuel Data Qualification Letter from NRC to ANL (ML20106F242)
2. Draft Safety Evaluation of ANL QAPP for SFR Metallic Fuel Data Qualification Letter from NRC to ANL (ML20054A226)
3. Request for NRC Assessment of the Quality Assurance Program Plan for SFR Metallic Fuel Data Qualification (ML19156A404)
4. Quality Assurance Program Plan for SFR Metallic Fuel Data Qualification ANL/NE-16-17 Rev 2 (ML19311C506)
5. RAIs regarding QAPP for the SFR Metallic Fuel Data Qualification (ML19263D939)
6. RAIs email from NRC to ANL (ML19277F135)

Example of Topical Report – A version: TR-1010-859-NP-A, Revision 4 (ML20080Q914)

Hello Lucieann,

ANL does not have any comment on the SE. Yes, please make it final.

Thank you.

Abdellatif

Good morning

Does ANL has comments?

If not, then can we make it final?

Please advise
