Dear Ms. Wiehle:

By letter dated March 31, 2020 (Agencywide Documents Access and Management System [ADAMS] Accession No. ML20136A471), Centrus Energy Corp. (Centrus) provided the U.S. Nuclear Regulatory Commission (NRC) its program description and plans related to the protection of classified matter for the American Centrifuge Lead Cascade Facility (LCF) and the American Centrifuge Plant (ACP) located in Piketon, Ohio.

We have completed our acceptance review of your submittal and have identified no administrative omissions or deficiencies. Your submittal has been assigned Enterprise Project Identification Number (EPID) L-2020-SPR-0003. Please reference this EPID number and Docket Numbers 07007003 and 07007004 in any future correspondence associated with this request. Please note that the NRC staff's detailed technical review of your submittal may identify omissions in the submittal information or technical issues which require additional information.

Based on our acceptance review and projection of current review schedules, we anticipate that we will complete the technical review of your submittal by October 30, 2020. The NRC staff estimates that completing the review of the classified matter security plans for the LCF and ACP will require approximately 600 staff hours plus \$50,000 in contract support provided by the Department of Energy (DOE) under an interagency agreement that is currently in the process of being renewed. The total cost of the review corresponds to about \$217,000.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room, or from the Publicly Available Records component of the NRC's ADAMS.
