Timex Control No.
10278-1

Attention: Ms. Betty L. Wright
Mail Code MNBB 8215
Export License No. XB-956
Issued 9/24/78

Dear Ms. Wright:

Thank you for the issuance of the above referenced license. We are aware of the time consuming and arduous task, members of your office had in obtaining concurrence from SNEC committee members.

Since action on our export license request, dated 4/20/78, was so late and overdue with respect to our sales and production requirements, we find our company in need of additional expedient emergency license action from your agency.

In order to make up lost production time, we are in need of your permission to export an additional 50,000 curies during the last quarter of 1978.

We hereby wish to amend our license as follows:

4th quarter 1978 exports to be increased from 50,000
curies to 100,000 curies.

Sincerely,

W. R. Kirklin
