

CUSTAV SCHWAB
Vice President
General Manager
Pipe Fabrication
Division

July 14, 1978

Mr. Norman C. Moseley, Director
Division of Reactor Construction Inspection
Office of Inspection and Enforcement
United States Nuclear Regulatory Commission
East West Towers Building
4350 East/West Highway
Bethesda, Maryland 20014

Dear Mr. Moseley:

Supplementing my letter of June 30, 1978 on above subject, I am pleased to announce that we have changed our organizational structure and have assigned Mr. W. A. Molvie, formerly our Chief Engineer, to the position of Manager - Quality Assurance and Technical Services reporting directly to the General Manager.

Mr. Molvie has been relieved of his responsibility for Production Engineering and will now devote his full time to Quality Assurance and related matters.

This is an additional step we are taking to reinforce our Quality Assurance Program.

Sincerely,

DRAVO CORPORATION
Pipe Fabrication Division

Gustav Schwab
Vice President and General Manager
