Gentlemen:

As you were advised by telephone on this date, the Commission today issued the enclosed Order to Show Cause, which requires that, upon completion of the present operating cycle on Thursday, October 27, 1977, the General Electric Test Reactor (Operating License No. TR-1) be placed and maintained safely in a cold shutdown condition pending our further order. Further, GE is ordered to show cause why this suspension of activities should not be continued. The basis for this action as well as further actions that you or the Commission may take are set forth in the Order.

Sincerely,

Edson G. Case, Acting Director
Office of Nuclear Reactor Regulation
