Attention: Mr. James G. Keppler

RE: WM. H. ZIMMER NUCLEAR POWER STATION -  
UNIT 1 - NRC IE BULLETIN NO. 78-12,  
FILE NO. 420

Gentlemen:

We acknowledge your letter of November 24, 1978 transmitting Supplemental IE Bulletin No. 78-12A which provides a 120 day extension for providing the required response concerning atypical weld material in reactor pressure vessels.

We also wish to inform you that our NSSS supplier, the General Electric Company, has informed us that gathering of the reactor pressure vessel weld information will require considerable time (i.e., about 4 months per vessel). We are, therefore, pursuing this activity with GE and a response will be provided within the 120 day period as permitted by Bulletin No. 78-12A.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY

By

*E. A. Borgmann*  
E. A. BORGMANN  
Vice President-Engineering Services  
and Electric Production
