

OHIO EDISON COMPANY

76 SOUTH MAIN STREET, AKRON, OHIO 44308 • 216-384-5918

ROBERT J. McWHORTER
VICE PRESIDENT

October 9, 1978

Mr. Roger S. Boyd, Director
Division of Project Management
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: Erie Nuclear Plant, Units 1 & 2
Docket Nos. STN50-580 and STN50-581
Additional Information for SER Supplement

Dear Mr. Boyd:

As mentioned in both the ACRS Subcommittee and ACRS Full Committee meetings for Erie Units 1 & 2, Ohio Edison Company has recently undergone a major reorganization. Due to the changes developed by this reorganization much of the PSAR organization information on which the SER was based is no longer valid. Although Ohio Edison Company will be updating the PSAR to include the changes which have taken place, it is not convenient to do so at this time since the total reorganization is not complete.

The intent of this letter and the enclosed diagram, therefore, is to supply the Staff with the pertinent information concerning Ohio Edison Company's present organization.

Senior Vice-President (Engineering and Construction) has responsibility for all engineering and construction activities. Vice-President (Generating Plant Engineering and Construction) has responsibility for generating plant engineering and construction and reports to the Senior Vice-President (Engineering and Construction).

The Manager, Erie Nuclear Plant Project is responsible for the timely and economic completion of this project; coordinates, and directs where appropriate, the planning and execution of project responsibilities assigned to Company departments, consultants, suppliers and contractors; obtains necessary licenses and permits; and has general charge of the Company's construction site organization.

Senior Vice-President (Generating Plant and Transmission System Operations) will have responsibility for the operation of the plant.

Please let us know if we can be of any further assistance.

Very truly yours,

Robert J. McWhorter
