Mr. Samuel Chilk
Secretary of the Commission
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention Docketing and Service Branch

Dear Mr. Chilk:

As an employer and as manager of an organization using radioactive material, I would like to comment on the petition in the Federal Register dated June 14, 1978 (Docket No. PRM-71-7, Non Destructive Testing Management Association ET AL).

Our company was not aware of the item, Appendix E of 10CFR, Part 71, therefore, we must support the above petition dated June 14, 1978.

Why must more regulations be added? Our current costs are increasing daily, the added paperwork of such rules as Appendix E, Part 71, would create more cost which we have to cover by increasing our prices.... INFLATION created by a government agency.

Our company and its employees request the removal of Appendix E to 10CFR, Part 71, or we may well all be on the Welfare rolls instead of working taxpayers.

Thank you for your understanding in this matter.

Sincerely,
