

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

COMM CORR
HENDRIE

December 8, 1978

OFFICE OF THE
CHAIRMAN

MEMORANDUM FOR: David Rubinstein
Applied Statistics Branch
Office of Management and Program Analysis

FROM: Chairman Hendrie *[Signature]*

SUBJECT: YOUR MEMORANDUM REGARDING THE LEWIS COMMITTEE
REPORT AND RISK ASSESSMENT

The Commission has received your memo of November 30, 1978 on this subject. We are considering this to be an Open Door request as you have stated. As you know, the Commission is in the midst of deliberations on the Lewis Report and its effect on NRC's policies and procedures. We intend to include your memo in these deliberations. The Commission will be conducting a public meeting on the subject of interest the week of December 11th. We invite you to attend that meeting, and if you wish, to make a statement or answer Commission inquiries regarding your concerns. If you would prefer a more private audience, we will consider any such request. In any event, we thank you for the observations and questions provided in your November 30 memo.
