Public Service Indiana
ATTN: Gerald L. Raley
Director, Environmental
Programs
1000 East Main Street
Plainfield, IN 46168

Gentlemen:

Pursuant to your July 2, 1987 letter to our office and the telephone conversation between Mr. Terry Spaulding of your office and myself on August 3, 1987, we have amended Condition 10. of your NRC License No. 13-15544-01 to indicate the true location of the Gibson Generating Station in Owensville, Indiana and not in Mount Carmel, Illinois. It is our understanding that in the past, Mount Carmel, Illinois was listed merely for mailing purposes and that the Gibson Generating Station has always been located in Owensville, Indiana.

In addition, we have received your license file back from the State of Illinois which we mistakenly transferred to them. We are sorry for any inconvenience this error may have caused you.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

Sincerely,

Original Signed By
Patricia J. Whiston

Springfield, IL 62704

Re: U.S. NRC Materials License Number 13-15544-01

Dear Mr. Eastvold:

We have received a letter from Dr. William J. Adams, State Agreement Program Officer, U.S. NRC, Region III indicating that the above referenced license has been placed under the jurisdiction of the Illinois Department of Nuclear Safety as part of your State Agreement Program. This letter is to notify you that all activity authorized by license number 13-15544-01 has, and will continue to occur, solely within the State of Indiana. Due to the location of our Gibson Generating Station in Gibson County, Indiana it is necessary to use a Mount Carmel, Illinois address. This was probably the reason the NRC transferred this license to Illinois.

We request that license number 13-15544-01 be returned to U.S. NRC Region III. We are informing Region III of this request by copy of this same letter.

Please contact Mr. Terry K. Spaulding at 317/838-1748 with any questions you may have. Thank you for your assistance in this matter.

Sincerely,

Gerald L. Raley
