Arlington, Texas 76011

Attention: Mr. Glen D. Brown

Gentlemen:

In reply to your letter dated September 11, 1978 concerning the inspection conducted by Messrs. Lorenzo Wilborn and Harry C. Harrison. We were found to be in noncompliance with the conditions of our license.

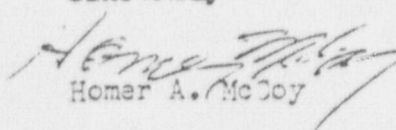

The infraction indicates we did not comply with condition 16 of our license, in that we did not properly inspect exposure devices at quarterly intervals.

This infraction was an oversight on our part. We did however conduct an inspection and maintenance of radiographic exposure devices at quarterly intervals. Our procedure for this quarterly inspection was to start the time of inspection from the day we received a new source from our vendor, by using this date to start our quarterly inspection, our exposure devices always receive a quarterly inspection.

In response to our phone conversation with Mr. R. J. Everett on September 14, 1978 we are sending a copy of quarterly inspection. I hope this information will satisfy you, in that we did conduct quarterly inspections and are fully aware of our noncompliance concerning this matter and have corrected our procedure on quarterly inspections and maintenance of exposure devices

If further information is needed it will be furnished upon request .

Sincerely

  
Homer A. McCoy
