Dear Sirs:

Our company was given a license to possess and use instruments with radioactive sources for sample analysis in a laboratory. Our license number is 52-19702-01. Two detector cells were removed from the instruments recently and sent to the manufacturer for final disposal. We include copies of the applicable documentation.

We will have other activities involving radioactive material. For that reason, we will not require termination of our license at this time.

Cordially,

Francisco E. López, Head
