Dear Sir or Madam,

The purpose of this correspondence is to amend the material license - medical, license # 24-01090-03 for St. John's Regional Medical Center. The attached form NRC-313M alludes to the specific items of change.

All unspecified items remain unchanged from previous submissions.

You will note that the preceptor statement B for Tom Fielder, M.D. has only 480 hours training. Please be advised that Dr. Fielder has been in continuous training in Nuclear Medical Procedures since this preceptor date of 4-30-87. We have every confidence that his hours of training now exceed the recommended 500 hours per Appendix A NRC Regulatory guide 10.8.

Please direct questions concerning this amendment request to the consultant named in Item 2 on form 313M.

Thank you for your time and consideration.

Sincerely,

Mark Beanblossom
