U.S. Nuclear Regulatory Commission  
Region II  
Materials Radiation Protection Section  
101 Marietta Street  
Suite 2900  
Atlanta, Georgia 30323

To Whom It May Concern:

Bluefield Community Hospital hereby request an amendment of its NRC Medical Byproduct Materials License # 47-19142-01, to accomplish two changes:

- (1) We would like to increase our Group III possession limit from 2 Curies to 3 Curies. This will enable us to have more Technicium-99m for increasing patient load in Nuclear Medicine.
- (2) We would like to have Dr. Michael E. Shahan added to the license as the Associate Radiation Safety Officer, to assume the duties of Radiation Safety Officer in Dr. Milner's absence. Dr. Shahan is an authorized user on this license.

Enclosed is a check payable to the U.S. Nuclear Regulatory Commission in the amount of \$120.00, as a license amendment fee in accordance with 10 CFR Part 170.31 7.C.

Thank you for your attention to this request.

Sincerely,

*Terry Jones*  
Terry Jones, Administrator
