Dear Mr. Barron:

On February 6, 1997, the NRC completed an inspection at your McGuire Nuclear Station. The enclosed report presents the results of that inspection.

The purpose of the inspection was to determine whether activities authorized by the license were conducted safely and in accordance with NRC requirements. Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

Sincerely,
