

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION II  
101 MARIETTA STREET, N.W., SUITE 2900  
ATLANTA, GEORGIA 30323-0199

FEB 19 1997

Mr. W. R. Copeland, Director  
Lee County Disaster Preparedness  
Agency  
Hospital Square, W. Church Street  
(MA) Courthouse Square  
Bishopville, SC 29010

Dear Mr. Copeland:

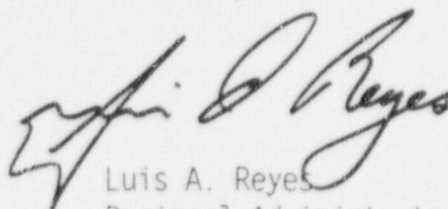

The Nuclear Regulatory Commission (NRC), as part of its responsibility of regulating nuclear power plants, periodically evaluates the performance of its licensees through a program called the Systematic Assessment of Licensee Performance (SALP). Through this program, we review and evaluate our licensees' performance in the four major categories of: Plant Operations, Maintenance, Engineering, and Plant Support. The Plant Support category includes an assessment of licensee performance with regard to emergency preparedness.

On March 25, 1997, representatives of the NRC will meet with the management of the Carolina Power & Light Company to discuss the Robinson Nuclear Power Plant's performance over the past 20 months. You are invited to attend this meeting as an observer.

Subsequent to this meeting, we have scheduled time to meet with you, and other members of your staff as you deem appropriate, to discuss matters of mutual interest with regard to the regulation and performance of Robinson.

This SALP meeting is scheduled to be conducted at 1:00 p.m., at the Robinson Information Center. The proposed meeting with you and other local and State officials will be conducted at the Robinson Information Center shortly after the conclusion of the SALP. Your schedule permitting, we look forward to meeting with you at that time. In the interim, please do not hesitate to contact me directly or other members of my staff if we can be of further assistance to you.

Sincerely,

  
Luis A. Reyes  
Regional Administrator
