Gentlemen:

Docket Nos. 50-510/511/458/459

Your letter of December 6, 1978 has been carefully reviewed by all Gulf States Utilities employees having responsibilities for nuclear power. In addition, I called a meeting of the senior managers responsible for the nuclear program and reemphasized the necessity of supplying accurate and complete information to the Nuclear Regulatory Commission. It has always been the policy and practice of Gulf States Utilities to supply complete and accurate information in all cases and you may be assured that this will continue.

Very truly yours,

Norman R. Lee
