Re: Pacific Gas & Electric
Company, Stanislaus
Nuclear Project, NRC
Docket No. P-564-A.

Dear Jack and Ben:

By letter of November 17, we have been sent a draft Stipulation and Order which PG&E has suggested we execute in the above-captioned proceeding. It is my understanding that all the intervenors and staff agree that the matter of acquisition of PG&E wholesale or retail distribution facilities by municipal action is firmly encompassed within the Order concerning production of documents already. However, since PG&E urges that it is not included already, and has excluded such possibility from its document search instructions, we are willing to execute the Stipulation to avoid the necessity of further delay and argument. It is my understanding that you will draft a letter of submittal to the Board on all of our behalves which will point out that we do not view the Stipulation as causing a change but that we are executing and submitting the Stipulation to avoid argument.

Yours very truly,

Robert C. McDiarmid
