Gentlemen:

Enclosed is Amendment No. 03 to License No. 20-19999-01, issued in response to your letter dated November 10, 1983. For your information, the Nuclear Regulatory Commission does not regulate cobalt-57 because it is accelerator produced. Therefore, your amendment does not include authorization for cobalt-57. You should contact the Massachusetts Department of Public Health for guidance concerning their licensing or registration requirements for use and possession of this radionuclide. Should you have questions, please call us at (301)427-4223.

Sincerely,

James W. Patterson
