FREEDOM OF INFORMATION
ACT REQUEST

Mr. Joseph Felton
U.S. Nuclear Regulatory Commission
Office of Administration
Washington, D.C. 20555

FOIA-78-258
mc'd 10-3-78

Dear Mr. Felton:

Under the Freedom of Information Act we wish copies
of the following records of your department:

Printouts of computer list # 02110
02120
02200
02400

These lists contain records of institutions or other
groups authorized to perform clinical Radioimmunoassay tests.

We also wish individual copies which are not on the
computer files. These would be the roughly 4,000 laboratories
authorized to do In-Vitro Radioimmunoassay testing.

We were advised by Ms. Hannah Bristow of your organization
that the records on your computer would cost \$6.13 and the
non-computer duplication would cost \$.10 per copy. Our firm
will accept financial responsibility for these expenses.

Thank your for filling our request as expeditiously as
possible.

Sincerely,

Philip J. McLaughlin
