2. Purpose of Meeting

The purpose of the meeting was to apprise the London and Russellville city officials of the mission of the Nuclear Regulatory Commission (NRC), to discuss the inspection and enforcement activities of the Office of Inspection and Enforcement (OIE), and to introduce Mr. T. F. Westerman, the Resident Inspector of the ANO site.

3. Matters Discussed

a. Organization

The organization of the NRC was briefly discussed and organization charts were distributed. The organization was traced from the overall Commission organization down to and including the Region IV organization. The group was informed of the location and telephone number of the Regional Office.

The creation of the NRC and Energy Research and Development Administration (ERDA) from the Atomic Energy Commission was discussed.

Authority of the Office of Inspection and Enforcement to inspect nuclear facilities as it appears in 10 CFR 50.70 was discussed.

The inspection and enforcement program of OIE was described. Included was a discussion of some of the detailed rules for implementing the regulations that govern the inspection program.

c. RIV Inspection Program

The inspection program, as implemented by the Region IV office, was described in detail. The utilization of a documented program and the mechanism by which enforcement action is processed were explained.

d. Resident Inspector and His Functions

The role of the Resident Inspector in regard to his interface with the licensee, regional office, IE Headquarters and community was described.

The fact that the inspector's duty station is now established at the ANO site was expressed. The city officials were made aware of his work telephone number and the Region IV telephone number.

e. Information Distribution

The officials were made aware of information available in the Washington and the Local Public Document Room (LPDR). The group was appraised of the location of the Local PDR.
