13. In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.
14. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below, except for minor changes in the medical use radiation safety procedures as provided in 10 CFR 35.31. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Applications dated May 17, 1994 and April 4, 1995; and
- B. Letters dated November 21, 1996 (excluding consultants report dated June 7, 1996, excluding Escrow Agreement, excluding Amendment No. 1 to Escrow Agreement and excluding Section V, Radioactive Waste Management Plan).

Dear Dr. Rosenfeld:

It has come to our attention that Amendment Number 40 to License No. 34-00398-08 issued on February 28, 1997 contained an error. Enclosed is a corrected copy reflecting the authorized users noted to be in error. We apologize for any inconvenience this may have caused you.

Also, please note that License Condition No. 13 was added to your NRC license which requires you to maintain your possess of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d). This condition was added since your current NRC license does not contain possession limits.

If you have any questions concerning the above, please contact me at (630) 829-9873.

Sincerely,

Original Signed By  
James R. Mullauer, M.H.S.  
Health Physicist
