Please review the changes to the SRM on SECY-96-189 (50.54(f) letters) in the attached file (96-189.SRM). The changes are all in the attachments to the SRM and were suggested, for the most part, by the staff. The deletion just prior to footnote 4 was provided by the Diaz office.

Please let me know by **Noon tomorrow (10/2)** if there are any objections to the proposed changes. Otherwise, we are planning to issue the SRM at that time.

Thanks,

Ken

Ken,

Our office has a modification to the first sentence in page 5 under the Action section. We suggest that it read:

The NRC has concluded that it requires information that can be used to verify compliance with the terms and conditions of your license(s) and NRC regulations, and that the plant UFSAR(s) properly describe the facilities, as well as to determine if other inspection activities or enforcement action should be taken.

Thanks,

Maria
