We have reviewed the NRC notice of license expiration forwarded to us by Ed Lynch. First, the NTS site has been decommissioned and FIT has no further need for this license. Second, all radioactive materials (C14), which were used in a firing unit comparator, have been returned. (The attached documentation was obtained from L. C. Porter, Marton-Thiolsol, Wasatch Division, 801/863-3015.)

Would you, as holder of the NRC license, please complete the attached form terminating the license (it expires 31 July 1987). For your convenience, we have filled in pertinent information.

If you have any questions, please call me or Bill Van Horn, x2151.
