Re: XB982

Dear Mr. Oplinger:

We understand that an amendment to export license XB982 for the remaining 620,000 curies of tritium will be issued when the United States receives the United Kingdom's assurance that none of the tritium licensed for export will be transferred in bulk gas form without prior approval.

We look forward to receiving this amendment to complete the quantity applied for on August 22, 1978.

Most cordially yours,
EDLOW INTERNATIONAL COMPANY
