Control No. 461457

JUL 13 1987

St. Mary's Hospital  
ATTN: Mary T. Brasseaux  
Administrator  
305 South Fifth Street  
P. O. Box 232  
Enid, Oklahoma 73702

Dear Ms. Brasseaux:

This refers to your correspondence received on April 6, 1987, requesting the renewal of your Byproduct Material License No. 35-17087-01. NRC issued a substantially revised regulation in regard to the medical use of byproduct material on October 16, 1986, which became effective on April 1, 1987. A copy of this regulation, 10 CFR Part 35, is enclosed.

Since your application for renewal of your license was submitted after April 1, 1987, you must prepare your application in accordance with the revised licensing guide (the enclosed Regulatory Guide 10.8, Revision 2) which supersedes Revision 1 of the guide used by you in preparing your application.

In addition, the application should be signed by the hospital administrator (not Mr. George W. Posey). Please submit a letter indicating that you have reviewed the application and concur in the statements, and representations contained therein. Note also, that the hospital administrator should sign all future correspondence, requests for amendment, renewal or any other licensing actions related to this byproduct material license.

In order to continue prompt review of your renewal application, we request that you submit your response to this letter within 30 calendar days from the date of this letter. Please reply in duplicate and refer to your Mail Control Number 461457. Your current license will not expire until final action has been taken on the license renewal.

Sincerely,

Ralph S. Heyer  
Nuclear Materials Licensing Section
